Fasih Ahmed Tariq

PHP-Laravel Developer

I'm a PHP-Laravel Developer with over 1+ year of experience in crafting robust web applications. My skill set includes PHP-Laravel, MySQL, AJAX, MVC, HTML/CSS, and REST APIs. I have expertise in all stages of the software development life cycle, including analysis, design, coding, testing, and implementation. I am a team player and work well with others to come up with innovative solutions.

WORK EXPERIENCE

PHP-Laravel Developer
New World's Solution-Lahore

09/2022 - Present

Achievements/Tasks

- Dedicated and skilled PHP Laravel Developer with a proven track record of creating efficient, scalable, and secure solutions, including the development of robust RESTful APIs. Proficient in translating complex business requirements into clean and maintainable code, I have successfully designed and deployed multiple projects using Laravel. My expertise lies in leveraging the power of MVC architecture and adhering to best coding practices to ensure optimized performance and seamless functionality, particularly in the realm of REST APIs. With a passion for crafting comprehensive web applications and a commitment to excellence, I bring a results-driven approach to every project.

PHP-Laravel Developer
Estate Solution-Islamabad

12/2021 - 09/2022

PROJECTS

Hospital Management System
- Developed a Hospital Management System using PHP Laravel and MySQL as a database. Played a major role in the development process.

Lab Management System
- Developed a Lab Management System using PHP Laravel and MySQL as a database. Took a lead role in designing and implementing the system.

Booking CRM
- Developed a Booking Customer Relationship Management system. Played a key role in developing various modules and ensuring smooth functionality.

Holiday Boulevard
- Contributed significantly to the development of the Holiday Boulevard project, focusing on front-end design and back-end integration.

Whatsappening
- Developed RESTful APIs for the "WhatsHappening" project, enabling seamless communication and data exchange between the backend and frontend components. Implemented robust endpoints to support various features, including user authentication, real-time messaging, and content sharing.

Falcon Transport
- Integrated Google Distance APIs to dynamically calculate travel distances and implemented a pricing algorithm based on distance. This innovation improved user experience by providing transparent and accurate fare calculations.

HOBBIES
