Fasih Ahmed Tariq
PHP-Laravel Developer

I'm a PHP-Laravel Developer with over 1.5+ year of experience in crafting robust web applications. My skill set includes PHP-Laravel, MySQL, AJAX, MVC, HTML/CSS, and REST APIs. I have expertise in all stages of the software development life cycle, including analysis, design, coding, testing, and implementation. I am a team player and work well with others to come up with innovative solutions.

WORK EXPERIENCE

PHP-Laravel Developer
New World's Solution-Lahore

09/2022 - Present
Achievements/Tasks

- Developed a cutting-edge Hospital and Lab Management System with user-friendly admin panels. Implemented barcode technology for enhanced data accuracy. A testament to my expertise in efficient healthcare solutions.Architected WhatsAppening, a sleek dating app, and designed end-to-end Rest APIs for streamlined user experience. Demonstrating my knack for creating efficient and interconnected solutions.Championed the Falcon Transport project, crafting the entire solution and leveraging Google Distance Matrix API for optimized logistics. A testament to my skill in developing efficient, location-based systems.

PHP-Laravel Developer
Estate Solution-Islamabad

12/2021 - 09/2022
Achievements/Tasks

- I have a proven track record of mastery in leveraging the Laravel framework to architect efficient, scalable, and secure solutions. My achievements include the successful development and deployment of multiple projects where I translated complex business requirements into clean, maintainable code. With a keen understanding of MVC architecture and a commitment to best coding practices, I consistently ensure optimized performance and deliver seamless functionality.

EDUCATION

Bachelor's in Information Technology
University of Gujrat

09/2017 - 09/2021   *CGPA-3.17*

FSC (Pre-Engineering)
Kallar Kahar Science College Kallar Kahar

06/2015 - 06/2017   *Total Marks-825*

SKILLS

HTML   CSS   BootStrap   PHP   Laravel

Git   Rest Api's

PROJECTS

Hospital Management System
- Developed a Hospital Management System using PHP Laravel and MySQL as a database. Played a major role in the development process.

Lab Management System
- Developed a Lab Management System using PHP Laravel and MySQL as a database. Took a lead role in designing and implementing the system.

Booking CRM
- Developed a Booking Customer Relationship Management system. Played a key role in developing various modules and ensuring smooth functionality.

Holiday Boulevard
- Contributed significantly to the development of the Holiday Boulevard project, focusing on front-end design and back-end integration.

Whatsappening
- Developed RESTful APIs for the "WhatsHappening" project, enabling seamless communication and data exchange between the backend and frontend components. Implemented robust endpoints to support various features, including user authentication, real-time messaging, and content sharing.

Falcon Transport
- Integrated Google Distance APIs to dynamically calculate travel distances and implemented a pricing algorithm based on distance. This innovation improved user experience by providing transparent and accurate fare calculations.

HOBBIES

Football   Cricket   Video Games

Reading Books   Monopoly
