Fasih Ahmed Tariq

PHP-Laravel Developer

I'm a PHP-Laravel Developer with over 3+ years of experience in crafting robust web applications. My skill set includes PHP-Laravel, MySQL, AJAX, MVC, HTML/CSS, REST APIs, and working with various hosting cPanels. I have expertise in all stages of the software development life cycle, including analysis, design, coding, testing, and implementation. Additionally, I have experience with AWS services, including S3 buckets. I am a team player and work well with others to develop innovative solutions.

WORK EXPERIENCE

Associate Laravel Developer
Botnostic Solutions

08/2024 - Present — *Islamabad*

Achievements/Tasks

- I'm currently involved in developing and managing recruitment bots, building and integrating APIs for chatbots on a Laravel backend and overseeing AWS services, including S3 buckets, to ensure seamless and efficient operations.

PHP-Laravel Developer
New World's Solution

09/2022 - 08/2024 — *Lahore*

Achievements/Tasks

- Developed a Hospital and Lab Management System with user-friendly admin panels and barcode technology for data accuracy. Architected WhatsAppening, a dating app with end-to-end Rest APIs. Led the Falcon Transport project, utilizing Google Distance Matrix API for optimized logistics.

PHP-Laravel Developer
Estate Solution

12/2021 - 09/2022 — *Islamabad*

Achievements/Tasks

- I have a proven mastery in leveraging Laravel to develop scalable, secure solutions. I've successfully translated complex business requirements into clean, maintainable code across multiple projects, ensuring optimized performance and seamless functionality.

EDUCATION

Bachelor's in Information Technology
University of Gujrat

09/2017 - 09/2021 — *CGPA-3.17*

FSC (Pre-Engineering)
Kallar Kahar Science College Kallar Kahar

06/2015 - 06/2017 — *Total Marks-825*

SKILLS

HTML · CSS · BootStrap · PHP · Laravel · Git · Rest Api's · MySql · JQuery · AWS

PROJECTS

Hospital Management System
- Developed a Hospital Management System using PHP Laravel and MySQL as a database. Played a major role in the development process.

Lab Management System
- Developed a Lab Management System using PHP Laravel and MySQL as a database. Took a lead role in designing and implementing the system.

Booking CRM
- Developed a Booking Customer Relationship Management system. Played a key role in developing various modules and ensuring smooth functionality.

Holiday Boulevard
- Contributed significantly to the development of the Holiday Boulevard project, focusing on front-end design and back-end integration.

Whatsappening
- Developed RESTful APIs for the "WhatsHappening" project, enabling seamless communication and data exchange between the backend and frontend components. Implemented robust endpoints to support various features, including user authentication, real-time messaging, and content sharing.

Falcon Transport
- Integrated Google Distance APIs to dynamically calculate travel distances and implemented a pricing algorithm based on distance. This innovation improved user experience by providing transparent and accurate fare calculations.

HOBBIES

Football · Cricket · Video Games · Monopoly
